

# MYR ZINC

Liquid fertilizer with Zinc and vegetal amino acids

MYR ZINC is a liquid fertilizer properly studied to prevent and cure the deficiencies of Zinc and to improve plant development and fruit quality. The particular composition of the product makes Zn easily assimilable and mobile inside the plant. MYR Zn, thanks to its high solubility and capacity of assimilation, helps plants to overcome quickly the stress induced by the nutritional imbalance.

MYR Zn prevents and treats effectively physiological disorders caused by Zinc deficiency: poor colour of the fruit, production losses, fruit drop, reduced rooting, dwarfism, bleached in maize shoots, etc..

## COMPOSITION

Zinc (Zn) water soluble	5%
Organic nitrogen (N)	3%
Total organic carbon (C)	18.4%
Vegetal amino acids and peptides	11%
pH	6

## ADVANTAGES

- Prevention and care of Zn deficiencies.
- Fast and effective action.
- Supply of organic nitrogen and amino acids.
- Reduction of fruit drop.
- Greater size and colour of the fruit.
- Nourishing and anti-stress action.
- It cures cold damage.
- It balances the vegetative growth.

### CROP

### DOSE

### METHOD OF USE

VINEYARDS	0.8 - 1.0 L/Ha
ORCHARDS	0.8 - 1.0 L/Ha
CITRUS	1.0 - 1.2 L/Ha
HORTICULTURE	0.6 - 0.8 L/Ha
INDUSTRIAL CROPS	1.0 - 1.5 L/Ha
CORN (MAIZE)	0.8 - 1.0 L/Ha
FLOWERS AND NURSERY	0.7 - 0.8 L/Ha

Against Zinc deficiencies: repeat the applications when needed. Start with treatments at early stage.
