Petro 79 + 2 MgO Bio

PRODUCT

Petro 79 + 2 MgO Bio is an organic fertilizer that nourishes plants in a balanced and constant way over time. fine raw materials are carefully selected to determine a planned nutrient release, as they are characterized by different net mineralization rates. Calcium and Sulphur, together with the humic fractions of Petro 79 + 2 MgO Bio, play a soil-shaping and “desalinating” and “unlocking” action towards the nutrients, while the presence of Magnesium improves the photosynthetic efficiency of the culture. Lastly, Petro 79 + 2 MgO Bio is enhanced by the presence of *RyZea*, an exclusive technology that enriches the product with phytostimulating molecules that improve crop productivity.
