

# No Phyt Ca 7-15+6

RESISTANCE  
INDUCERS  
LINE

Induces a sudden phytoalexin production while increasing the plant endogenous resistance

1

Gives crops crispness and consistency

2

Prevents physiological plant disorders due to Calcium deficiency

3

A PARTICULARLY ACTIVE AND MOBILE  
PHOSPHORUS-BASED INDUCTOR

**special fertilizers**  
for a modern  
agriculture

# No Phyt Ca 7-15+6

## DESCRIPTION

No Phyt Ca 7-15+6 ensures abundant yields and optimal quality characteristics. Thanks to its acidifying power, the product guarantees a greater availability of nutrients in the soil. No Phyt Ca 7-15+6 induces the production of phytoalexins, which stimulate the plant endogenous defences against the most common pathogens. No Phyt Ca 7-15+6 is ideal for the timely prevention and treatment of all physiological plant disorders related to calcium deficiency; the latter, thanks to the exclusive formulation of the product, is rapidly conveyed to the growth tissues, and particularly to the fruits, giving them greater consistency and increased post-harvest shelf-life.

COMPOSITION	w/w	w/v		w/w	w/v
Total Nitrogen (N)	7,0 %	9,3 %	Phosphorus Pentoxide (P <sub>2</sub> O <sub>5</sub> ) water-soluble	15,0 %	19,9 %
Nitrate (N)	5,0 %	6,6 %	Calcium oxide (CaO) water-soluble	6,0 %	7,9 %
Ammoniacal Nitrogen (N)	2,0 %	2,6 %			

%w/w equivalent to %w/v at 20°C.

## DOSES AND INSTRUCTIONS FOR USE

Crops	Foliar application	Dose ml/hl
Three crops, Horticultural crops	From fruit set to harvest	150-250
Industrial crops, Ornamental crops	Throughout the entire vegetative cycle	100-150
Crops	Application in Fertigation	Dose l/ha
Three crops, Horticultural crops	From fruit set to harvest	8-12
Industrial crops, Ornamental crops	Throughout the entire vegetative cycle	6-8

The above doses are meant to be a merely indicative value and may vary in relation to the soil and climate conditions of each area.

## WARNINGS

In case of mixture with other products, it is advisable to carry out small preliminary tests to verify compatibility and miscibility, as well possible varietal sensitivities. Do not associate either with mineral oils, copper or calcium-based products or directly with alkaline reaction formulations.

FORMULATION	PACKAGES	DENSITY (T=20°C)	pH (sol. 6 %)	CONDUCTIVITY (sol. 10 %)
Soluble liquid	1 - 5 - 10 - 20 - 1000 l	approx. 1330 kg/m <sup>3</sup>	approx. 1,3	approx. 72,8 dS/m
