Petro Evo 15-15-15

BASAL DRESSING LINE GRANULAR

- Granular sustained-release formulation
- Improves nutrient availability
- Increases yields

THE ENERGY OF PETRO, AT LAST WITHIN A GRANULE

Petro Evo 15-15-15

PRODUCT

Petro Evo 15-15-15 is a product with a high technological content because it is characterized by the presence of three exclusive Agriges production technologies, namely: *RyZea Plus*, *Bpc* and *Bbtp*. The energy of Petro, the historic pelletised product by Agriges, which has always guaranteed the maximum agronomic performance of crops, has finally been transferred into a granule. Thanks to *RyZea Plus*, Petro Evo 15-15-15 increases the amount of nutrients absorbed, improving quality production, while, thanks to *Bbtp*, Petro Evo 15-15-15 gradually releases the nutrients, avoiding their loss. The microbial component of *Bpc* proliferates in soil, even under unfavourable environmental conditions, with beneficial effects on the plant. Petro Evo 15-15-15 guarantees gradual and effective nutrition.

COMPOSITION			
Total Nitrogen (N)	15,0 %	Total Phosphorus pentoxide (P ₂ O ₅)	15,0 %
Ureic Nitrogen (N)	7,5 %	Potassium oxide (K ₂ 0) water-soluble	15,0 %
Ammoniacal Nitrogen (N)	7,5 %	Total Sulphur trioxide (SO₃)	7,5 %

Containing RyZea Plus, Bbtp and Bpc

DOSES AND INSTRUCTIONS FOR USE				
Crops	Soil application	Dose kg/ha		
Tree crops	Upon vegetative resumption and after harvesting (200-400 kg/ha)	300-800		
Horticultural crops	In the pre-transplanting/sowing phase and under cover	300-1200		
Industrial crops	Sowing	300-500*		
Cereals	Sowing	200-300		

The above doses are merely indicative and may vary depending on the soil and climate conditions of each area, the planting density and the type of crop. They must also be included within the entire fertilization plan. * 100-200 kg/ha in case of distribution of the product located along the row

WARNINGS

Store at a temperature between 10° C and 30° C. Keep in the original container in a cool, dry place, away from excess heat. Do not exceed the appropriate doses.

FORMULATION	GRANULAR DIAMETER	HUMIDITY	PACKAGES
Granules	1,5-4,5 mm	-	25 kg
