Petro 555 CS MO

Gradually nourishes starting from the vegetative emergence / regrowth

1) cinergence / regrowth

Phytostimulates plant metabolism

Significantly improves soil fertility

A NEW WAY OF BASAL FERTILIZING

Petro 555 CS MO

PRODUCT

Petro 555 CS MO is an organo-mineral fertilizer which is created from the processing of premium raw materials, carefully selected to determine a programmed release of the nutrients. These are, in fact, characterized by different net rates of mineralization. Petro 555 CS MO provides Calcium, a key element with a nourishing and ameliorative effect of the chemical and physical characteristics of the soil, allowing Petro 555 CS MO to perform a "desalinating" activity towards the nutrients. Furthermore, Petro 555 CS MO is enhanced by the presence of *RyZea*, an exclusive technology that enriches the product with phytostimulating molecules which improve root development, the amount of nutrients absorbed and productivity of the crops.

COMPOSITION			
Total Nitrogen (N)	5,0 %	Total Calcium oxide (CaO)	10,0 %
Organic Nitrogen (N)	3,5 %	Total Suphur trioxide (SO ₃)	6,0 %
Urea Nitrogen (N)	1,5 %	Organic Carbon (C) of biological origin	14,0 %
Total Phosphorus pentoxide (P ₂ O ₅)	5,0 %	Organic substance	28,0 %
Potassium oxide (K ₂ O) soluble in water	5,0 %		

Components: protein hydrolysates with variable mineralization, humified mixture of manure (cattle, poultry), plant cakes, urea, potassium sulfate, RyZea.

DOSES AND ADMINISTRATION				
Soil application	Dose kg/ha			
At the planting, before the vegetative reawakening or after the harvest	700-1000			
Before sowing/transplanting during the working of the soil	500-900			
Before sowing/transplanting during the working of the soil	600-1000			
Before sowing during the working of the soil	400-600			
	Soil application At the planting, before the vegetative reawakening or after the harvest Before sowing/transplanting during the working of the soil Before sowing/transplanting during the working of the soil			

Aforementioned doses are indicative and may vary in relation to the pedo-climatic characteristics of each zone.

WARNINGS

The product must be buried, avoiding direct contact with the fertilized plants. Store in cool, dry place and keep away from excessive heat. For the best use of this product, consult the fertilization plans.

FORMULATION	PELLET DIAMETER	HUMIDITY	PACKAGES
Pellet/powder	3.5 mm	5 - 6 %	25 - 600 kg / Sack, big bag
