Myster Reactive

PRODUCT

Myster Reactive is a versatile product that is widely used in agriculture as a corrective, soil conditioner and fertiliser, as well as enhancing the effectiveness of chemical and natural fertilisers. In fact, Myster Reactive provides two fundamental mesonutrients to improve the chemical and physical properties of soils, especially those with pH and sodium problems, Calcium and Sulphur, which also have a very important nutrient function for plants. The special formulation, based on calcium sulphate with added organic matter, improves aeration and water infiltration, promotes the activity of beneficial soil microflora, and ultimately enhances crop well-being by stimulating plant growth.

COMPOSITION

Organic Nitrogen (N) *	1,0 %	Total Calcium oxide (CaO)	25,0 %
Organic Carbon (C) *	8,0 %	Total Sulphur trioxide (SO ₃)	35,0 %

Raw material: calcium sulfate (gypsum) only of natural origin. * Data not shown on the label.

DOSES AND ADMINISTRATION

Crops	Soil application	Dose kg/ha
Fruit trees		1500-2000
Horticultural and Industrial crops		700-1000

Aforementioned doses are indicative and may vary in relation to the pedo-climatic characteristics of each zone.

WARNINGS

Store in cool, dry place and keep away from excessive heat. For the best use of this product, consult the fertilization plans.

FORMULATION

Pellet

PELLET DIAMETER

3,5 mm

UMIDITY

18 %

PACKAGES
