PETRO 33 **FERRO ZOLFO**

Gradually nourishes starting from the vegetative emergence / regrowth

Acidifies the soil and increases the amount of available nutrients

RyZea increases the availability of nutrients for

the plant

A NEW WAY OF BASAL FERTILIZING

PETRO 33 **FERRO ZOLFO**

PRODUCT

Petro 33 Ferro Zolfo is an organic fertilizer that nourishes plants in a balanced and constant manner over time. The product includes RyZea technology, which releases particular organic acids that remove nutrients from soil minerals, increasing their availability for the plant. In addition, Petro 33 Ferro Zolfo, thanks to the latter, is a completely exclusive formulation deliberately enriched with special known chelating agents (e.g., glycine), which "bind" soil nutrients, conveying them to the plant more easily and effectively. Among other components, RyZea provides a high percentage of amino acids that improve plant recovery after winter stasis.

COMPOSITION			
Total Nitrogen (N)	3,0 %	Total Iron (Fe)	0,2 %
Organic Nitrogen (N)	3,0 %	Total Magnesium oxide (MgO) *	1,0 %
Total phosphorus pentoxide (P_2O_5)	3,0 %	Organic Carbon (C) of biological origin	17,0 %
Total potassium oxide (K ₂ O) *	1,0 %	Organic substance	34,0 %
Total sulphur trioxide (SO ₃)	12.0 %		

^{*} Information not provided on the label because below statutory parameters. Components: protein hydrolysates with variable mineralization, humified manure mixture (bovine and poultry), oil cake, elemental sulphur, calcium sulphate (gypsum), ferrous sulphate, and RyZea.

DOSES AND ADMINISTRATION		
Crops	Soil application	Dose kg/ha
Fruit trees	At the planting, before the vegetative reawakening or after the harvest	1000-1200
Horticultural crops	Before sowing/transplanting during the working of the soil	700-1000
Industrial crops, Cereals	Before sowing/transplanting during the working of the soil	800-1200
IV range crops	Before sowing during the working of the soil	500-700

The above doses are purely indicative and may vary according to the soil and climate characteristics of each area

WARNINGS

The product must be buried, avoiding direct contact with the fertilized plants. Store in cool, dry place and keep away from excessive heat. For the best use of this product, consult the fertilization plans.
