Partner 800

DESCRIPTION

Partner 800 is an innovative liquid fertilizer, prized for the pureness of its components and for the high concentration of organic Nitrogen and of free amino acids with low and medium molecular weight. Partner 800 is obtained from the organic substance derived from animal origin, rich in levogyrous free amino acids (biologically active form) such as arginine, proline, threonine, lysine, essential for the formation of new plant tissue and rapidly absorbed by crops. In fact, Partner 800 promotes plant growth, favors the growth of fruits and vegetables, increases absorption of the nutritional elements and makes recovery of the plant following atmospheric stress faster. Partner 800 also contributes to improving the chemical-physical and biological characteristics of the soil, thus reducing also salinity and increasing the activity of the beneficial microorganisms.

COMPOSITION

	w/w	w/v		w/w	w/v
Total Nitrogen (N)	8,0 %	10,0 %	Organic Carbon (C) of biological origin	25,0 %	31,3 %
Organic Nitrogen (N) soluble in water	8,0 %	10,0 %			

Raw materials: hydrolyzed animal epithelium.
%w/w equivalent to %w/v at 20°C

DOSES AND INSTRUCTIONS FOR USE

Crops	Application in Fertigation	Dose l/ha
Fruit trees	From vegetative regrowth and throughout the cycle	15-25
Horticultural	From vegetative regrowth/after transplantation and throughout the cycle	15-25
Industrial	From vegetative regrowth/after transplantation and throughout the cycle	15-25
Ornamental	From post-transplantation and throughout the growth	10-25

Aforementioned doses are indicative and may vary in relation to the pedo-climatic characteristics of each zone.

WARNINGS

If mixed, carry out miscibility and compatibility tests beforehand. It may cause inconveniences if distributed mixed with copper-based products. Moreover, mixed with fertilizers and/or systemic products reduce and verify doses.

FORMULATION

Soluble liquid

PACKAGES

5 - 10 - 20 - 120 - 200 - 1000 l

DENSITY (T=20°C)

approx. 1250 kg/m³

pH (sol. 6 %)

approx. 6,6

CONDUCTIVITY (sol. 10 %)

approx. 15.8
