

Partner

SPECIAL
FERTIGATORS
LINE

1

It increases root absorption

2

It improves metabolism and Nitrogen assimilation

3

It chelates the nutritional elements reducing insolubility

DESCRIPTION

Partner is an innovative liquid fertilizer, valued for the purity of its components and for the high concentration of organic Nitrogen and of the free amino acids with low and medium molecular weight. Partner is obtained from the organic substance derived from animal origin, rich in levogyrous free amino acids (biologically active form) such as arginine, proline, threonine, lysine, which are essential in the formation of new plant tissues and are rapidly absorbed by crops. In fact, Partner promotes plant growth, promotes the growth of fruits and vegetables, increases absorption of the nutritional elements and makes recovery of the plant following atmospheric stress faster. Partner also contributes to improving the chemical-physical and biological characteristics of the soil, even reducing salinity and increasing the activity of beneficial micro-organisms.

COMPOSITION

	w/w	w/v		w/w	w/v
Organic Nitrogen (N)	6,5 %	7,7 %	Organic Carbon (C) of biological origin	23,5 %	27,7 %
Organic Nitrogen (N) water-soluble	6,5 %	7,7 %			

Raw material: hydrolyzed animal epithelium.
%w/w equivalent to %w/v at 20°C.

DOSES AND INSTRUCTIONS FOR USE

Crops	Application in Fertigation	Dose l/ha
Tree crops	From vegetative resumption and throughout the cycle	15-25
Horticultural	From vegetative resumption/after transplantation and throughout the cycle	15-25
Industrial	From vegetative resumption/after transplantation and throughout the cycle	15-25
Ornamental	From post-transplantation and throughout the growth	10-25

The above doses are meant to be a merely indicative value and may vary in relation to the soil and climate conditions of each area.

WARNINGS

In case of mixing, perform the miscibility and compatibility tests. It may cause inconveniences if distributed mixed with copper-based products. Moreover, mixed with fertilizers and/or systemic products, reduce and check dose.

FORMULATION

Soluble liquid

PACKAGES

5 - 10 - 20 - 120 - 200 - 1000 l

DENSITY (T=20°C)

approx. 1180 kg/m³

pH (sol. 6 %)

approx. 6,6

CONDUCTIVITY (sol. 10 %)

approx. 21,7
