# Buystar Extra NPK

## 15-05-30 + 13 SO<sub>3</sub>

### PRODUCT

Buystar Extra NPK 15-05-30 + 13 SO<sub>3</sub> is a microcrystalline fertigator that is characterized by total and immediate solubility, for the presence of Sulphur and *RyZea*, which in synergy stimulate the growth and development of the plant. Due to the presence of Sulphur, Buystar Extra NPK 15-05-30 + 13 SO<sub>3</sub> has the ability to acidify the solution, to free the mineral elements locked in the soil/substrate from retrogradation and to improve the absorption which is conveyed rapidly with the *RyZea* biological activator that enriches the formulation of the components that are able to enhance plant metabolism, soil-based processes and naturally chelate the nutrients provided or already present in the circulating solution.
