Zolfo 50

DESCRIPTION

MYSTER ZOLFO 50 corrects alkaline and saline soils. Ideal for all acidophilic crops.

The presence of sulphur is essential for the synthesis of amino acids, proteins and many vitamins. Sulphur corrects the pH of alkaline soils inducing insolubilisation of phosphorus and most trace elements. Organic matter bound to sulphur results in the formation of humo-mineral bonds that promote the retention of nutrients in the soil in a form available to the root systems of plants.

COMPOSITION

Elemental Sulphur (S)	50.0 %
-----------------------	--------

Elements: Elemental Sulphur.

DOSES AND METHODS

Crops	Soil application	Dose kg/ha
Arboreal	At planting stage, before vegetative awakening or after the harvest	800-1200
Horticultural	Before sowing/transplanting during soil tilling	800-1500
Industrial, Cereals	Before sowing/transplanting during soil tilling	400-500
4 th range crops	Before sowing during soil tilling	800-1000

The above doses are indicative and may vary according to the soil and climate characteristics of each area.

WARNINGS

The product should be buried, avoiding direct contact with fertilised plants. Store in a cool, dry place and away from excessive heat. To make the best use of the product, consult the fertilisation plans.

FORMULATION

Pellet/powder

PELLET DIAMETER

3.5 mm
